Bidder Signature <hr/> (Signature of person authorized to sign)	Department of Transportation  <hr/> (Authorizing Signature)
Date Signed:	Date Signed: 3-21-06

NOTE: This signed addendum MUST be included with your response to the Request For Bid.

This addendum is published to respond to questions received from a vendor seeking clarification about the required specifications for the materials requested in the RFB.

Questions: On the 2 1/4" x 2 1/4" anchor, is this a telespar type tubing or structural type? An ASTM # would be helpful. What is the galvanizing specification for the 2 1/4" and 3" anchors?

Answer: The 2 1/4" is a telespar type tube. They are manufactured from ASTM A653, Grade 50, Galvanized Coating Designation G-140. The 3" is a structural type tube. It can be produced from many types of structural quality specs. (ASTM A500, A513, A570), Hot Dipped Galvanized to ASTM A123.
